

INFORMATION FOR NEW FAMILY CARE SUBSCRIBERS!

Family Care was launched five years ago as a free resource for carers, and families with health and disability needs.

20,000 copies of the magazine are distributed every quarter; most are posted to readers at their homes. With support from our major sponsors, we have been able to keep the magazine free for many readers, but due to rising costs, we need your help. We are asking existing readers who can afford to do so to contribute a \$25 annual subscription to cover the cost of producing your magazine. New subscribers will also be asked for this contribution. We understand that many readers cannot afford to pay a subscription – please don't worry if this is the case, as we are raising funds to keep the magazine free for as many as we can! But if you are able to contribute, or are a new subscriber, thank you for helping us to enable *Family Care* to reach as many readers as possible.

We want to learn more about our readers! Please tick any of the following that apply to your situation.
